

# Grief Support Groups

Gulfside Hospice offers bereavement support groups for individuals coping with the loss of a loved one. Under the counselor's leadership, members of the group share information, experiences and emotional support. The groups emphasize discussion and participation, and focus on various aspects of grief and the healing process.

The groups are an open format, welcoming up to 12 members who may join one or both weekly sessions. The groups are free and open to the public. For further information, please contact the Bereavement Support Services department at 800-561-4883.
